

# VISION 2030

BUILDING A BRIGHTER CLIMATE FUTURE

## Invitation to Host SAGE's Vision 2030 for a Keystone Lesson or Climate Solutions Fair

SAGE is a nonprofit organization that inspires people to *give forward* with their time, money, and voice so that future generations can thrive. We manage the **Vision 2030** Team, which includes teachers, volunteers, and nonprofit and governmental organizations who support a local, place-based approach to educate middle and high school students about our region's efforts to reduce greenhouse gas emissions 50 percent from 1990 levels by 2030.

By hosting the Vision 2030 Team, schools can provide their students with unique learning opportunities, foster a culture of environmental responsibility, and showcase their commitment to sustainability. Since 2019, we have developed locally relevant lessons on climate solutions, service-learning offerings, and information about workforce opportunities. Among our initiatives, we recently presented our Keystone Lessons and Climate Solutions Fairs at middle schools in partnership with Portland Public Schools, Parkrose School District, the City of Portland, and other organizations.

### What are the goals of SAGE Vision 2030?

1. To offer creative, hands-on learning experiences about Portland's 2030 climate goal and the solutions in our regional Climate Action Plan.
2. To help students learn and engage with initiatives that advance these solutions through internships, service-learning projects, and climate careers.

### What does the Vision 2030 Team offer?

We offer two free student learning opportunities. The **Vision 2030 Keystone Lessons** on Climate Solutions is an interactive lesson about our region's 2030 climate goal, solutions, and workforce opportunities. The **Vision 2030 Climate Solutions Fair** is an all-day event, showcasing the inspiring climate solutions outlined in our region's Climate Action Plan and the community service activities and jobs that bring these solutions to life.

For the 2025-2026 school year, we plan to offer Keystone Lessons and Climate Solutions Fairs at hosting schools. If you are interested, please contact our Program Director by email at [Britt@WeAreSage.org](mailto:Britt@WeAreSage.org) or by phone at (503) 868-1268.

You can learn more about our Vision 2030 Team at <https://www.wearesage.org/join-a-team/climate-education-team>. We are excited to hear from you and discuss how we can collaborate to bring these valuable educational opportunities to your students.
